

# WHO'S DIRECTING THIS TRAGEDY?

Illegal immigration, who benefits?

The Mexican government (\$26 billion sent back yearly), big business, religion, and government programs/agencies. What about the “Feel Strongly Both Ways” Unctuous Mike Beebe and his back-stage enablers—insurance man and (poof) mental health provost Jay Bradford? Chicken-Shill Morril Harriman? Attorney General and Campaign Chairman for Hillary, Daaustin McDaniel? Andres Choa of the Mexican Consulate Clearinghouse for illegals?

Who suffers and pays for this illegal Mexican and O.T.M. invasion?  
Middleclass taxpayers, of course.

Governor Beebe stated:

*“We need a policy that this is allowed, and this is not allowed and try to enforce it”. Read the laws below, there’s your answer.*

Current US Law Speaks

### 8 USC Sec 1325—Illegal entry

*...shall be subject to civil and criminal penalties, can be fined and imprisoned.*

#### Section 1324a Hiring, Harboring, Transporting any illegal alien

*...guilty of a felony punishable by 10 yrs jail + \$2,000 fine per illegal alien + forfeiture of property.*

#### Section 1324c Law officers have authority to make arrests

*...all officers whose duty it is to enforce criminal laws shall have authority to make arrests for violation of any provision of this section.*

#### Section 1644

*...no local ordinance, rule or measure shall stop law enforcement officers from enforcement of the section.*

#### Title 19, USC 1459, Section (f) & (g)—illegal entry(f)

*Civil penalty of \$5,000 for the first violation, and \$10,000 for each subsequent violation(g)  
Criminal penalty liable for a fine of not more than \$5,000, or imprisonment for not more than 1 year, or both.*

The people speak

Governor Beebe:

If you are not comfortable enforcing U.S. immigration law, we citizens expect you to convene an emergency legislative session immediately and replicate recent Oklahoma illegal alien laws. No 2 year “study session”, no blaming “the Feds”. Arkansas is in a crisis mode, from not only illegals coming from Mexico, but the massive numbers arriving here daily from California, Oklahoma, and Tennessee due to Arkansas’ government treating the invaders to multiple benefits not available to citizens and no restraints, in violation of our laws.

Governor, cut your strings to the master puppeteers and uphold your sworn Constitutional duties by protecting citizens physically, economically, and our standard of living.

No return to Wilsonian politics, not Woodrow, Gov. Beebe, but convicted State Senator Nick Wilson.

### **Arkansas' own Trail of Tears", i.e. the crimes of the Oligarchs and their enablers.**

Where to begin? The Arkansas Friendship Coalition. No friends in this coalition.

The Rev. Steve Copley, Archie Schaffer, Randy Wilbourn, Rita Sklar, Neal Sealy, Tommy Fish, Graham Catlett, Mark Stodola, Stacy Sells, Skip Rutherford, Alan Leveritt, Wendell Griffin, Jim Miranda, John DiPippa, Warren Stephens.

The AFC is an open-borders, cheap labor, and amnesty organization dedicated to the economic and political genocide (Deliberate mass murder of a race, people, or minority group) of middleclass Americans, and in this case middleclass Arkansans.

The enablers of the AFC begin and end with a rogue Arkansas state government, Mike Beebe and Morrill Harriman at the helm. Illegal immigration is their prize in the battle between the citizens and the Oligarchs/politicians/bureaucrats/political parties/religion. Follow the Big Money.

As you may recall, Beebe, as a state senator, said he was in utter shock and amazement about the get-rich scheme created by state senators Mike Todd and Nick Wilson. Wilson served time for his multitude of criminal endeavors. In those days nothing passed the Senate without the knowledge and/or tacit approval of Beebe, then Senator Morrill Harriman (Beebe's best friend) and now Chief of Staff. It seems Beebe was mentored by criminally convicted, former Senator Nick Wilson and some members of the present legislative body were also mentored by Wilson, Beebe, and Harriman. Through the ignorance, stupidity, and worshiping at the altar of the Democrat party, Arkansans have allowed politicians and bureaucrats to create a political machine, the likes we have never seen before. Due to the magnitude and number of players, this Democrat machine is perhaps the most corrupt in the state's history, or at least is the one that tends to most seriously cause economic harm to middleclass Arkansans.

Note the big players (Oligarchs), e.g. Tyson's, Walton's, Stephen's, the Chambers of Commerce, the Catholic Church, et al, seriously never offer any of their ill-gotten lucre to pay for the carnage heaped upon our society by their illegal Mexican and OTM invaders. The corporate elite puppeteers simply pull the strings of their political subordinates when need arises. Governor Mike Beebe and Attorney General Dustin McDaniel and insider Morrill Harriman pull the unconstitutional corrupt strings over state

government. The feckless Ark. State Legislature, ensconced in a protection racket, never questioning the Oligarchs' authority—some out of fear, some devoid of ethics/morality, and some (I fear the majority) seeking acceptance from the Oligarchs' trough while climbing the murky political/economic rope. I have been personally told by some legislators that they were fearful of introducing legislation that would curb the illegal Mexican invasion for fear of being ostracized from the body politic. Translation: they are cowards. Others like to parrot Beebe's line, "it is the Fed's responsibility". This group are either cowards or on the take.

The principals: Gov. Mike Beebe...an attorney, 20+ yrs in the legislature, 4 yrs as Attorney General, 2 yrs as Governor. Never has Beebe taken a public Constitutional position on a substantive issue, e.g. the illegal Mexican invasion, nor does he intend to. The Governor's non-positions on the illegal immigration issue are designed to obfuscate and convey the idea that he cannot act. Unfortunately many Arkansans fall for this bromide. Beebe says "It is a federal responsibility", his position is partially true, Article 4, Section 4 of the Constitution. I remind the Governor that we are citizens of the United STATES of America and not the United State of Amerika...he therefore has the sworn obligation to secure our sovereignty by enforcing state laws which he maintains are plentiful along with U.S. Federal law 8USC, 1324, et seq, which applies to states of which he very well knows. Beebe's stated position in no way absolves him from enforcing immediately the aforementioned laws. Beebe would have us believe that he does not have the legal authority to enforce the applicable provisions of the United States Code. Added to this untruth, are we to understand by refusing to secure Arkansas' sovereign border, he has no problem continuing to allow illegals to overrun our state? In this regard, Beebe was quoted in the same published piece "we need stronger enforcement of the Federal laws that our taxpayers pay the federal government to uphold". Gov. Beebe, since you are the elected leader of Arkansas why don't you lead in enforcing the state and federal laws? The United States Code gives the authority to arrest illegal aliens to "all other law enforcement whose duty it is to enforce criminal law". <http://caselaw.lp.findlaw.com/scripts/ts>

Arkansas has also authorized enforcement of Federal Immigration Laws.

<http://www.arkansasleg.state.ar.us/acts/2005/public/act907.pdf>

All this information and more means there is NO BAR TO ENFORCEMENT OF IMMIGRATION LAW BY STATE & LOCAL AUTHORITIES. The Dept of Justice believes state & local police are entitled to act when they believe Federal immigration laws are being violated.

Some of Beebe's more profoundly absurd utterances..."legal is legal, illegal is illegal, and we're going to have to find out what is legal". Another brilliant quote "We need a policy that this is allowed, this is not allowed, and try to enforce it". He goes on to say "the State has all kinds of laws dealing with immigration" ...name them Governor, and

why aren't you enforcing them? He also said "I took an oath to the U.S. & Ark. Constitution" ...Governor, why aren't you enforcing the statutes you allude to, when will you begin? Of course the answer is you act like a traitorous man and have no intention of securing our sovereignty, therefore you are unworthy of serving as Governor and must be removed. "I'm not going to increase taxes to do the Fed's job". Arkansas has a billion dollar surplus. "I did not know about Act 907" ....Act 907 bars contractors from doing business with the state who hire illegals. Beebe was A.G. at the time and he says he did not know about 907? Police depts., sheriffs & INS/ICE should be arresting those hiring illegals" ...Governor, why haven't you commanded them to do so? Bloviating, not action is the name of his game.

4/8/8 Beebe was asked if Ark. Should pass a law such as Okla.'s strict immigration law. Beebe stated, "there are current criminal violations in state law that address that issue". Gov. state them, and again, why are they not being enforced? He said "there's already a state prohibition against illegal aliens receiving certain benefits, such as Medicaid". Governor, this is an outright lie. You were Attorney General when Arkids 1<sup>st</sup> was crafted, Medicaid A & B were expanded and the SCHIPS program was created. You have proven to be a bald-faced liar or grossly incompetent, Illegals receive all state benefits on demand, no questions asked. Why else would all these forms be printed in Spanish , interpreters provided, and healthcare professionals jumping to illegals' attention?

Gov. Michael Beebe can only be described as an arrogant hired-gun for corporatist elitists.

Headline: Arkansas Democrat-Gazette

5/20/08

Beebe quotes "While I oppose illegal immigration, I cannot support this initiative" (Initiative proposes to eliminate some of the state benefits to illegal aliens not mandated by the Fed). Beebe says "all of these proposals, major provisions are already covered by Federal or state laws, and the proposal will create bigger government and cost Arkansans money". Another nonsensical statement by the governor.

More hard-nosed arrogant threats by Beebe in a copyright story 7/9/08 Times Record.

Headline: BEEBE SAYS IMMIGRATION FIGHT LOOMS. "With reference to another proposed ballot initiative to withdraw benefits from illegals, Gov. Mike Beebe stated: "if they take a similar proposal to the legislature next year he will oppose it".

Governor, surrounding states are dealing with the illegal Mexican and OTM invasion in a Constitutional manner. They are: Okla. Gov. Brad Henry, Mo. Gov. Matt Blunt, TN. Gov. Bredesen. Why is Gov. Beebe not in the equation? Citizens, you know the answer. The Governor is controlled by the Chicken Federation, Ark. Contractors, the Chambers of Commerce, various religious sects, and expanding government programs.

If these provisions are already covered, how would it create a bigger government and cost Arkansans money? In reality what it will do is undergird the current laws you say we have. When, where and how often have they been enforced and what has been the outcome? Token, at best.

In this same article the Democrat printed a study released last year by the Urban Institute, funded by Arkansas' Winthrop Rockefeller Foundation, reported that "aliens and their children have a small, but positive net fiscal impact on the state budget". The study found that the state spent \$237 million in 2004 (that's 4 yrs ago), on education, health services and prison services for aliens, but took in \$257 million in tax revenue from the same population." As you can see, only 3 areas of service were covered.

There are literally hundreds of other services not counted in the Rockefeller study. First and foremost, Food Stamps, & WIC coupons, just to name two., followed by emergency room services which act as illegals primary care facilities and in most cases hospitals are never reimbursed. The Rockefeller Foundation in 2006 determined that more than 50% of Hispanics are here illegally. An ultra-conservative estimate by any standard. Is it not said that illegals are hiding in the shadows? Actually, hiding in the shadows are the self-serving, cowardly politicians and bureaucrats". "The state's manufacturing wage bill would have been as much as \$95 million higher in 2004 if the same output were to be maintained without illegal workers". An open admission that middleclass Arkansans' work is going south.

According to a published report in Judicial Watch 5/6/08, over 60% of HUD properties are occupied by illegals. La Raza (the Hispanic organization) received \$1.3 million from HUD this year to conduct "comprehensive housing counseling" for Hispanics (whether they are in the country legally or not).

In this same report, it is stated that the new law (FHA Housing Stabilization & Homeownership Retention Act of 2008) includes \$100 million for the National Council of La Raza, ("The Race") which has raked in millions of taxpayers' dollars over the years.

So much for the horrific burdens placed on middleclass Americans by design, accompanied by the corruption in state and federal governments at all levels. As a friend said not long ago, referring to our middleclass, "We kickin' our own asses"!

It is more than apparent that Gov. Beebe has no intention of stopping the bleeding that is caused by the illegal Mexican and OTM (other than Mexican) invasion. He, along with the rest of state government, have thrown their considerable legislative, judicial, and law enforcement powers into the abyss known as the open-border, cheap labor and other cartels regardless of personal and financial costs to the citizens. Beebe states routinely, his position in the matter of the illegal Mexican and OTM invasion is one of

“economics”. Beebe has even gone so far as trying to inculcate “compassion” as being on the same standard as the Rule of Law. Even as Attorney General he skated and dodged with outright lies, doublespeak, obfuscation, when he knows and you know, the illegal invasion is a Rule of Law issue. It is only an economic issue when equated to the billions of dollars stolen from middleclass Americans by corporations and the illegal Mexican invasion.

Citizens don't let this foil of the Tyson's, the Walton's, the Stephen's, et al make you believe he can't stop this economic and cultural genocide. Remember, the Governor is a lifelong politician and lies roll out routinely when the truth would better serve.

October 3, 2005, then Gov. Mike Huckabee accompanied by Robert Trevino, past president of LULAC, (League of United Latin American Citizens) flew in the state's airplane to Mexico City for a meeting with then president Vicente Fox. The purpose of the trip was to inaugurate plans for the construction of a Mexican Consulate in Little Rock, Arkansas. Ultimately the Mexican Consulate was formally opened in March, 2007. During the interim 2005-2007 a number of illegal acts took place.

Huckabee violated , with impunity, Article 1, Section 10 of the U.S. Constitution, which states in part, no State shall, without the consent of Congress, enter into Any Agreement or Compact with another State or with a foreign power. Why did the Federal Prosecutor and the former Attorney General Beebe not intervene to prevent this crime against the people? The Arkansas state legislature was not aware of Huckabee's activities; as far as I know the first elected representative to find out about the Consulate plans was a state senator from Hot Springs who made known his dissatisfaction, and then not another peep.

A private investigator was hired shortly after the revelation and it was determined that Andres Chao and another Mexican lawyer were officing in a state owned building, using state employees for secretarial work. Huckabee or one of his minions charged the Mexican government \$1.00 for the offices and secretaries. Further investigations revealed that an Arkansas Consortium had agreed to pay the expenses incurred by the Consulate for 3 years, with an option for 3 more.

I was told if I wanted written records resulting from the FOIA, I would have to journey to Little Rock and pick up requested documents at Trevino's office. Trevino was appointed head of Ark. Rehab Services. Qualifications? Trevino presented the FOI documents to me and my attorney, but before that, he redacted the name of the representative of the Arkansas Consortium.

Apparently redacting is a common practice by bureaucrats and politicians. Ask yourselves what groups or entities would pay 3 years of expenses to a foreign national government and how they would benefit?

The Mexican Consulate serves as a clearinghouse for illegal Mexicans to be distributed to the criminal workforce, i.e. Walton's, Tyson's, Simmons, Ark. General Contractors, etc. The Consulate also serves as a distributor of false documentation, the Matricular Consular card which banks and other federal & state entities regularly accept, except in Mexico. Citizens, the Rule of Law occupies no position in the corporate criminal quest for ill gained moneys—simply put, follow the money. As a sidebar the Chambers of Commerce can only be called enemies of the middleclass, due to open-borders and as powerful amnesty advocates. The Chambers are embedded in the corporate hierarchy.

Former Little Rock Mayor Dailey, while in office, awarded \$50,000 taxpayers' dollars to the Mexican Consulate and as Huckabee was coming to the end of his term, he withdrew \$10,000 taxpayer dollars out of the emergency fund and gave it to the Mexican Consulate. Needless to say, there are numerous highly questionable activities that went on and are ongoing.

During the time that we were investigating the criminal acts surrounding the implementation of the Mexican Consulate, I had 3 conversations about the aforementioned with then Attorney General Mike Beebe. During the first conversation with Beebe I suggested to him that as the chief law enforcement agent for the state, he institute legal action against Gov. Huckabee on a number of levels, but of course Article 1, Section 10 was the focal issue. Beebe responded with hyperbole, something about the War Between the States restricting the powers of the A.G., and ultimately he only represented state agencies.

My second conversation with Beebe, I asked for a meeting with he and the governor to discuss these apparent violations of the law...he said he would speak to the governor. He himself, was running as hard as he could for governor at that time and in his typically cowardly persona he was not about to tick off the governor, the Poultry Federation, and the Ark. General Contractors who are making millions off illegals while middleclass Arkansans are subsidizing the whole of corporate criminality.

My third and final conversation with Beebe: He said he would take it to the state police. What a great idea, Huckabee appointed the head of the state police. Did Beebe ever carry out his suggestion? The answer is NO.

Beebe was quoted in the Arkansas Democrat-Gazette, Tuesday May 20, 2008..."While I oppose illegal immigration". Governor, when, where, and how? It is patently obvious you have sold out middleclass Arkansans to the Tyson's, Walton's, Stephen's, and the rest of the Arkansas Friendship Coalition—the criminals hiring, transporting and abetting illegal aliens. Clearly an economic and political genocide is being waged against middleclass Arkansans by you, Gov. Beebe, and your administration, orchestrated by your handlers, i.e. The Arkansas Friendship Coalition. Governor, something that might

create a modicum of sensitivity and compassion on your part, the recently passed Ag Bill, vetoed by the president, overridden by the Senate, infused with \$10.3 Billion **NEW** money into the food stamp program, another magnet for illegals bankrolled by middleclass Americans. Taking in 3-5 million foreign nationals yearly, mostly 3<sup>rd</sup> worlders, legal and illegal will absolutely and unequivocally sink in the very short term what is left of our U.S.A. "lifeboat"? To verify the utterly absurd \$10.3 Billion in the bloated Food Stamp Program, I called Sen. Blanche "the Delta Duchess" Lincoln's office 6/6/8 to verify that number. I spoke with an aspiring, bureaucrat know-it-all by the name of Ted, who assured me that illegals did not get food stamps and this criminal largesse offered up by Lincoln's office and the Senate was "already paid for". Our republic, a \$9 Trillion debtor nation and \$65 Trillion in unfunded 10 year mandates...and Ted has the temerity to tell me the \$10.3 Billion increase in Food Stamps has already been paid for and illegals don't get Food Stamps, and the 3 million illegal's penetrating our borders yearly has no affect on the extraordinary expansion of the Arkansas and U.S. welfare state. The Delta Duchess either hires young ignoramuses or world class liars.

I further remind you that the Office of Management Budget (OMB) states that more than 10% of all Americans are on Food Stamps ( actually, physical Food Stamps have been replaced with a debit card for the convenience of all recipients, and the illegal aliens in particular won't be embarrassed when they check out). 41% of all illegals are on welfare. Oh yes Governor, the U.S. lost 62,000 more jobs in June, 2008.

For documentation see [www.arkansasfreedom.com](http://www.arkansasfreedom.com)

**Headline: Arkansas Democrat-Gazette Friday May 23, 2008...."State's colleges warned about in-state tuition".**

The two biggest violators in granting in-state benefits to illegals are the U of A Fayetteville campus and UCA at Conway.

The governor's mandate at this time is indeed curious. Why and who alerted the Governor to the criminal acts by the various Universities & colleges being perpetrated against the producers, e.g. those of us who create the largesse to keep politicians and bureaucrats in splendor? The 2005 legislature defeated HB 1525 which would have awarded scholarships to illegals and other benefits. USC President Lu Hardin came forth with the brilliant statement "however, the governor's mandate....is a reasonable request and the Univ. of Central Arkansas is immediately changing our application to reflect that." No Mr. Hardin, it is the law, not a request, there is a difference. Hardin goes on to say that "they will not make the policy retroactive". Why not Mr. Hardin? Is the illegal funding so dear to you that you will continue to break the law retroactively? Is the rule of law not in your repertoire?

Enter U of A president B. Alan Sugg, who said in a statement "the University of Arkansas system has not knowingly violated state and federal law". He goes on to say "this is a complex issue that is not unique to Arkansas". The issue is not complex; it is a matter of adhering to Arkansas mandates and U.S. Law. What's not being unique to Arkansas got to do with your breaking the laws? Both Sugg & Hardin are either ignorant of the most basic of laws or liars. Both should be terminated from their positions immediately. Gentlemen, acquaint with yourselves with 8 USC, specifically with Section 1325, 1324a, & 1324c.

In the article President Hardin states the "Dept. of Higher Education lacks direct governing authority over the state's institutions of higher education". So what is their purpose? The burning question; is there state or Federal oversight at any level designed to require accountability to the state's citizens? However; Hardin points out that the Dept. of Higher Education makes funding recommendations to the legislature, and baby you can count on that. FUNDING is the name of the game for bureaucrats and politicians.

Next comes newly elected Attorney General Dustin McDaniel. A majority of voters elected McDaniel to the office and in short order McDaniel signed on to be Hillary Clinton's co-chair in Arkansas. It appears that acting as co-chair is more than a conflict of interest, using taxpayer money to elevate his political profile. Campaigning on taxpayer time is not ethical, but when has ethics entered into the matrix of Arkansas politics. So much for the comedic "ethics committee".

Further investigation identifies McDaniel's office as being in the Tower Building owned by Graham Catlett and his law partner Little Rock mayor Mark Stodola. At least the past 2 Attorneys General, Beebe and Pryor have occupied offices in Catlett's building. A number of questions arise. Why is a Constitutional Arkansas office holder housed in a private building?

2. What financial arrangements with reference to rent have been made? Who makes the payments and how much? Why would Arkansas' chief law enforcement agent, i.e. McDaniel, occupy close quarters with the state's largest attorney firm dealing with legal & illegal immigration and at the same time supporting amnesty, cheap labor, and open borders? Is McDaniel influenced by his office environment?

Harkening back to the Arkansas Friendship Coalition, donors directly associated include Graham Catlett's name. He is also a major personal donor to Dustin McDaniel's campaign. Graham Catlett=\$4,000, Catlett/Stodola=\$4,000, Catlett, Inc=\$4,000, Meredith Catlett=\$6,000, and Catlett Tower Partnership=\$4,000. Donors directly associated with the Arkansas Friendship Coalition have contributed \$36,300. Some of the most notorious open borders advocates are Archie Schaffer (bagman for Tyson's

Foods), Don Tyson, John Tyson, Alltel, etc. Sources: Dustin McDaniel Campaign Filing Reports.

What is the attraction that Graham Catlett and friends have with D. McDaniel, put another way, is McDaniel being influenced, coerced, or in any way acting unethically?

In the matter of the Secure Arkansas Ballot Initiative, Attorney General McDaniel cost the canvassers 31,658 signatures by delaying the approval of the ballot title twice. The canvassers were collecting on average 1439 signatures per day. The two delays cost the volunteers 22 working days.  $22 \times 1439$  equals 31,658 signatures. That figure, coupled with the 50,000 plus signatures they obtained would have ensured the ballot initiative would have appeared in the November general election.

Were those delays intentional?

**Headline: Arkansas Democrat-Gazette...Sat. 5/24/2008.**

Regarding Gov. Mike Beebe's ultimatum that university officials change their policies to ensure they're asking prospective students whether they're legal residents of the U.S. University system president B. Alan Sugg said "the UA system wasn't trying to flout the law previously when it failed to ask for evidence of legal residency to determine who's eligible to pay in-state tuition. Sugg is openly admitting he was aware of the law and chose to violate the law with impunity. Note there is absolutely no oversight over the Dept. of Education and its ancillary departments. The Departments of Education can only be described as out-of-control money laundering operations. More specifics regarding a nexus between the Ark. Dept. of Education and growing illiterate illegal adult Mexican population are to come.

UCA president Lu Hardin stated "there's no plan to check the applications of current students" ...why not, Mr. Hardin? That statement reeks with arrogance and indicates a lack of respect for existing laws. Speaking of lack of respect of laws appears to be a staple in Pres. Hardin's background. Hardin received a \$300,000 bonus recently. This fact became known in a Democrat article published 7/2/08. Bonus Babies have left the realm of professional athletics and entered into the sphere of alleged "education". This bonus, awarded behind closed doors is another backroom bureaucratic/political deal. Jack Gillian, UCA's V.P. of Administration says Hardin has been paid the full \$300,000 on a UCA check. A public payment of money was not authorized by a legal action of the Board of Trustees.

What did he do to rake in \$300,000? At the same time Hardin has awarded UCA employee's a 2% raise, while the citizens providing the largesse are struggling mightily. Departments of Education are functioning like runaway steam engines, and apparently the feckless legislature are too cowardly to shut this monster down...or all they all in bed together? Warwick Sabin and Max Brantley reported on July 3, 2008 on Brantley's blog

that the Board is also considering a paid sabbatical for Hardin at some point to run for political office (Governor in 2014?).....something considered improper if not illegal. But since when does that matter?

A quick calculation indicates Pres. Hardin may receive in the neighborhood of \$750,000 this year, compliments of Arkansas taxpayers. Are perks included, e.g. housing, transportation, health insurance, life insurance, annuities, etc. etc? That's each of you reading this. Still want to re-elect these self-serving buffoons in the state legislature? What is the possibility of A.G. Dustin McDaniel investigating the activities of Hardin and the official UCA Board regarding the aforementioned financial matters? Is this not a violation of the rule of law and illegal exaction of taxpayer monies?

The following quote says it all about Lu Hardin's honesty and integrity. "Hardin said last week he regretted that after the May 2<sup>nd</sup> meeting he told reporters he did not receive a raise, but failed to mention a \$300,000 bonus.

In a pang of guilt, or was it political face-saving, Hardin returned the \$300,000 bonus but throughout the caveat he expected private sources to repay the \$300,000. Remember, the \$300,000 he returned was taxpayer money.

Wanna bet that all will be forgiven by the judicial, politicians, and bureaucrats, and it's "bid'ness" as usual?

ASU president Les Wyatt stated his university had always complied with the law. He also stated that he tried to pass legislation in 2005 that would have granted in-state tuition benefits to illegal aliens. Note that all these benevolent individuals who support expansion of welfare programs to illegals are in the taxpayer trough.

Dan Hurley, Director of State Relations at the American Association of State Colleges & Universities, said "the national debate on the issue has intensified over the past year". He goes on to say "it makes economic sense these individuals; they are not going back to their home country. They're staying in Arkansas." Says who, Mr. Hurley? Hurley speaks like a true Marxist...how many sponges like Hurley do you think there are in the Dept. of Education who are living off the producers, i.e. those of us who are generating the funds to keep these Marxist parasites in diapers?

A story was written 4/22/08 by Rob Moritz of the Arkansas News Bureau generally describing a proposed ballot initiative that would limit some benefits to illegals not mandated by the Fed. Moritz in describing the Arkansas Friendship Coalition states that civic, church, and business leaders oppose punitive state and local laws targeting "immigrants". To Mr. Moritz and the open borders/amnesty crowd in the Coalition, these folks are not "immigrants", they are illegal alien criminal invaders.

A 3 year investigation by ICE into the Pilgrim Pride plant in Batesville, netted a whopping 17 illegals. In this pathetic crackdown, ICE quite by accident stumbled onto \$11 million in Crack possessed by the illegals. How long will Gov. Beebe and state government continue to protect these illegal alien drug runners and cartels? Allowing this environment to escalate most certainly should be grounds for Gov. Beebe's impeachment or defeat. Forget the adults addicted to crack cocaine, think for a moment how many of our school age children will end up as addicts. Batesville is just another example of the crisis created by protecting the open-borders, cheap labor crowd. Again I reiterate, the Chambers of Commerce, Tyson's, Walton's, OK Foods (Wenderoth & Bragg), and expanding government programs are, directly and/or indirectly, some of the major exploiters of slave labor and taxpayer subsidies.

This next statement vividly demonstrates the ineptness and illegal conduct of the U.S. Dept. of Justice, speaking specifically, newly appointed U.S. Attorney Jane Duke. Duke referring to the Pilgrim Pride raid stated "her office had no interest seeing those arrested serving jail time as they were otherwise law-abiding citizens'. Madam Prosecutor Duke, illegals are not citizens. Is this justice? Another of Duke's gems, "they came here to better their lives and their family lives by working". This statement by Ms. Duke again shows what can only be described as air-headed and utter disregard for U.S. law, and by any standard she is complicit in the criminal enterprise of selective law enforcement.

It is more than curious that when our vaunted law enforcement agencies make a political splash-down in their seldom raids, they notify the owners beforehand that they are going to make a raid and then later crow that management "cooperated". ICE, FBI, BATFE, etc., US. Law demands that management be arrested. Madam Prosecutor Duke, why are you circumventing U.S. law? The largest employer to my knowledge of illegal aliens is the Tyson's/meatpacking, poultry processing enterprises....why have the Tyson's not been arrested as felons under existing law? Oh yes, Follow the Money.

**Headline: Democrat-Gazette, Saturday, June 21, 2008**

Springdale group hears discussion on alcohol program by Hispanics

Barry Miller of something called "Decision Point, Inc." told Bentonville civic leaders that the rehabilitation center needs more money to help Hispanics who are ordered by the courts to get alcohol treatment. I will make some suggestions to the fundraising hustler Barry Miller. 1. Deportation 2. Take your fundraising request to the Tyson's, George's, Simmons, and the rest of the ruddy crowd. 3. The Ark. State Police spending millions on TV and radio ads directed to American citizens regarding the consequences of drunken driving, while whining that they would be politically incorrect if they racially profiled the Hispanic population. How many thousands of these invaders are driving without insurance, driver's licenses, driving while intoxicated, engaging in gang activities, drug distribution, falsifying identifications, ad infinitum? The Justice Dept. &

law enforcement agencies treat these invaders as if they were an endangered species. As reported in this piece on another page, 13 American citizens are killed every day by drunken Hispanics. The sordid conduct of politicians and bureaucrats and hired personnel failing to uphold their sworn Constitutional duties makes them far guiltier of heinous crimes against citizens than the Mexican and OTM invaders.

Barry Miller of "Decision Point, Inc", hustle someone besides the beleaguered tax payers.

The state of the Republican Party is equally as corrupt as the Democrat party, if not more so. The following is an example. Last fall a Washington, D.C. hit woman, via Texas by the name of Karen Ray was hired as the Arkansas state GOP director. Ray sent a Republican legislator an email critical of efforts to crack down on illegal aliens. Such an effort "runs the risk of making our party look racist" she said. This little airhead has no regard for our sovereignty, heritage and Rule of Law. Ms. Ray explain why enforcing U.S. statutes, i.e. securing our borders, deporting illegals, and arresting the fat cats for hiring illegals, i.e. Tyson's, Walton's, Wenderoth, Simmon's. Pilgrims, etc. who are already felons according to U.S. law is racist?

Returning to the Ark. Friendship Coalition, Stacy Sells of Little Rock, a public relations executive and a member of the Coalition, which opposes efforts to place further restrictions on illegal aliens, said Burlsworth's (Chair of Secure Arkansas) assertions don't make sense, i.e. Burlsworth being against free prenatal care for illegals, emergency rooms being used as primary care facilities at no charge, Food Stamps, translation, transportation, and at least \$15,000 a head for illegal students and children of illegals in government schools, ad infinitum. What is Sells true motive for being more than willing to give away the farm to foreign national criminals?

Sells goes ahead to say "it's farfetched to think that America is building a superhighway to import illegal aliens from Mexico". Stacy, for your information the name of the proposed highway is the "Trans-Texas Corridor Highway". The scheme was hatched under the name of the SPP (Security, Prosperity, Partnership) at Baylor U. in Waco Tx in April 2005. Attending were Pres. GW Bush, former Mexican President Vicente Fox and Canadian Prime Minister Paul Martin. There have been 3 meetings since, one in Canada, one this past March in New Orleans, attended by Bush, Calderon, and Harper. A third meeting in June 2008 in Mexico City attended by Sec. of Defense Robt. Gates, and same capacity members from Canada & Mexico.

Sells, in 2005 Rudolph Giuliani became a senior partner in the law firm of Bracewell & Giuliani based in Houston, TX. The firm held secret meetings with TX Gov. Richard Perry & Cintra Concesiones, a Spanish corporation to create and run the Trans-Texas Corridor, a proposed 12 lane hwy from San Antonio to Kansas City, MO. Cintra put \$6 Billion in upfront money; all negotiations with Cintra are handled by Bracewell & Giuliani

LLP with rights to maintenance and all tolls for 50 yrs to Cintra/Giuliani. The current U.S Attorney General Michael Mukasey's son is employed by Bracewell/Giuliani. There is more! Cintra/Giuliani control all toll roads and profits in Indiana and Chicago, Ill. Stacy, are you beginning to get the picture?

So Stacy, you need to do some serious research because it is obvious you are certainly not informed. So what is your burning interest in the Arkansas Friendship coalition? May I tell you? Follow the money. I FOIA'ed the Arkansas Parks & Tourism Dept. regarding their campaigns directed toward illegals in the Spanish language.

It became patently obvious that the Public Relations firms are limited to Aristotle and Cranford Johnson, who apparently have a monopoly on the Parks & Tourism business. The commercials done for radio, TV, and print media, all done in Spanish in violation of Arkansas State Law, serve as a magnet to entice more illegal Mexican nationals into our state to serve the cheap labor corporate enterprises, e.g. poultry and construction.

Directors of Parks & Tourism are appointed by the Governor for 6 yr terms, and are obviously cronies of governors.

My FOIA failed to uncover the total expenditures on producing commercials for illegal Spanish speaking Mexican nationals. The FOIA did reveal that Parks & Tourism has recently signed another 2 yr contract with Aristotle & Cranford, Johnson and has increased their advertising budget by \$30 million for the current 2 yr cycle. Further investigation showed that Aristotle & Cranford, Johnson were hiring professional actors for these spots and not only were these spots outsourced to public TV, but were being run by Mexican TV Univision (and who knows where else?) It appears Parks & Tourism is paying both companies to produce the Spanish speaking spots and then both companies sell these spots to other media, as well as being paid a commission for their placement. There are an inordinate number of former Arkansas state employees being hired by Aristotle and Cranford, Johnson.

Producing radio/TV/print media in Spanish encourages legals and illegals alike not to learn our official language English and serves to further Balkanize our state and nation. Stacy Sells interest is obvious; she is employed by the Cranford Johnson agency.

Questions:

1. Citizens, are you aware that \$10's of millions of dollars of your tax money is being directed to the illegal Mexican and OTM communities via broadcast & print media in Spanish? Serving as a magnet to bring more illegals into our state to serve the cheap labor desires of Tyson, Pilgrim, OK Foods, Simmons, George's, the Arkansas Contractors Assoc., and additional funding for the Catholic Church, etc, and the growth of government programs/agencies?

2. Was this giveaway program in anyway legitimized by the moribund state legislature? Do you think they know or care or want a piece of the pie?
3. Richard Davies, Director of Parks & Tourism, said he would send me the specifics I requested in my FOIA, he has yet to reply. As has been the case with the Dept. of Human Services, The Ark. Children's Hospital, and the Ark. State Police.
4. A copy of all the FOIA's submitted to the Arkansas State government may be viewed at [www.arkansasfreedom.com](http://www.arkansasfreedom.com)

FOIA's to the Ark. State Police reveal that documents are being printed in Spanish by the agency which allow illegals to obtain Driver's licenses and voting privileges, documents are printed in color.

There is currently a lawsuit against the Ark. State Police regarding English as the official language and the conduct by the State Police and other government agencies appears to be in willful violation of Federal Statutes and Arkansas law. Citizens, how many of you aware that the Ark. State Police and other state agencies are secretly in violation of citizens' trust & confidence, trashing Ark. Law and U.S. statutes and carrying out their criminal enterprises in defense of the illegal Mexican & OTM population, all paid for by middleclass Arkansans?

Another major slap in the citizens' face conducted by the burgeoning self-serving, so-called educational cabal took place at a 3 day meeting beginning 5/6/08. The meetings were comprised of officials (what kind?) from Arkansas, Kansas, Mississippi, and Oklahoma. The program was held at the state Capitol regarding " Plaza Comunitaria." The program, free to participants (guess who pays?) offers immigrants (illegals) access to websites and instruction videos to obtain Mexican Diplomas for elementary & middle school educations in Spanish for illiterate, illegal Mexican adults & children. Why would these parasitic fools in the Ark. Dept. of Education, directed by overpaid Ken James offer to educate foreign national illegal aliens in their own language with subject material required in their homeland? FUNDING.

For a fee, illegals can also earn the equivalent of a Mexican High School diploma, said Patricia Ramos Mendez, Director of International Affairs for Mexico's National Institute for Adult Education. (Demented? Absolutely. Only the fools running the state would succumb to such violent stupidity) Presently there are official emissaries from the Mexican government dictating the tenor of business to the Ark. State Government while middleclass Arkansans being made fools of by Gov. Beebe, Ed. Dir. Ken James, A.G. McDaniel and the state legislature.

As initially stated, the 3 day confab was held in the people's building, the state capitol, occupying offices on 2 floors, behind locked doors & drawn curtains, no itinerary information on subject matter or attendees, vocal hostilities and a physical

confrontation averted by a private investigator. The numerous capitol police present were conspicuously absent from the Hispanic attacks. Day 2 of the 3 day affair, Jeannie Burlsworth of Secure Arkansas went to the Secretary of State's office, accompanied by the same investigator to document an Initiative re the illegal alien invasion. The P.I. was filming the proceedings and some employee of the state standing behind the P.I. asked one of the two secretaries if they knew they were being filmed, at which point the white secretary erupted into a tirade, called the Capitol police, police arrived and escorted Ms Burlsworth and the P.I. out of the Capitol. Understand, there are cameras throughout the building; so much for U.S. citizen justice.

Immediately upon conclusion of the 4 state illegal Mexican confabs, an FOIA was submitted to Education Czar Ken James.

THE REQUESTS OF THE FOIA'S FILED MAY BE VIEWED BY SCROLLING DOWN THE LEFT SIDE OF THE SITE TO THE TITLE "FOI REQUESTS" at [www.arkansasfreedom.com](http://www.arkansasfreedom.com)

As you may have noted the specific FOIA made to the Ark. Dept. of Education requested 11 documents, none of which were provided by Ken James. What was provided was a litany of paperwork involving the curriculum to be taught to legal and illegal Mexican national adults, but not limited to.

The magnitude of the illegal undertaking is unbelievable. Beebe, James, and the Legislature want to confer Mexican diplomas to legal and illegal illiterates. In other words, middleclass Arkansas taxpayers are being raped by the aforementioned 3 to provide education for alien illiterates in their native tongue in all educational venues indigenous to their homeland which is obviously the responsibility of their own country, in this case Mexico. The cost in manpower, equipment, money, etc. will be overwhelming if allowed to continue and will serve as another huge magnet for illegals. I remind you that Mexico is the 5<sup>th</sup> richest country in the world and the U.S. is the largest debtor--\$9.5 trillion and counting.

Ken James obviously feels job secure by his open arrogance and thumbing his nose at the FOIA request refusing to provide the 11 documents requested. His arrogant security can only come from Beebe. The 11 documents requested shows a melding of the Arkansas and Mexican governments, with an extraordinary number of state programs directed to the illegal Mexican alien population. To verify this please log on to the sections dealing with the FOI's. [www.arkansasfreedom.com](http://www.arkansasfreedom.com)

As previously stated the quotation "Plaza Comunitaria Program" is designed to award Mexican high school diplomas in Spanish , also designed to teach Marxist Communism. It is not now publically known who authorized the takeover of the state capitol by the illegal contingents from 4 states. As noted, the only information Ken James provided

was a detailed schematic presentation of the course work to be provided. A partial list of the courses is as follows:

1. WE ARE MEXICANS. WE WILL TEACH PARTS OF SPEECH (GRADE SCHOOL) AND ON UP TO HIGH SCHOOL.
2. TAKING CARE OF EACH OTHER IS EVERYBODY'S TASK
3. EDUCATION OF OUR CHILDREN
4. MEXICAN SINGINGS
5. HOW TO READ AND FILL OUT FORMS
6. IDENTIFYING DATA THAT CONFORMS, DIVERSE USEFUL DOCUMENTS, AND THE FUNCTION OF EACH ONE.
7. TEXT READING AND WRITING DIFFERENT SUBJECTS RELATED WITH OUR WORLD AND CIVIL RIGHTS.
8. TEACHING MEXICAN HISTORY FROM 1823 TO THE PRESENT. (THAT WAS THE INCEPTION OF MEXICO AS A COUNTRY).
9. WE WILL GET TO KNOW THE LINGUISTIC DIVERSITY CHARACTERISTIC OF THE SPANISH SPOKEN IN OUR (MEXICO) COUNTRY, ( AND THERE ARE LITERALLY 100'S OF DIALECTS...MOSTLY NOT CASTILIAN SPANISH)
10. MEXICO 'S CULTURAL ROOTS AND HERITAGE
11. MIGRATION TO THE U.S: ORIGINS AND CONSEQUENCES
12. MILITARY AND SPIRITUAL CONQUEST OF MEXICO
13. IDENTIFY SOLIDARITY AS THE WAY TO BEING PROTECTED AND IMPROVING OUR QUALITY OF LIVING.
- 14. CONCLUSION: MOST OF THE CURRICULUM SMACKS STRONGLY OF TEACHING ILLITERATE ADULTS THE TENANTS OF COMMUNISM IN ORDER TO PASS THEM ON TO THEIR COUNTRY AND FAMILIES.**

Every state agency which has been FOI'ed has been engaged in similar conduct. The political, economic, and cultural genocide against middleclass Arkansans should be met with swift justice. There was a day when such officials' stretched necks would have adorned the light poles in every city.

By the way, does Secretary of State Charlie Daniels ever put in an appearance in his office? The King of Nepotism is another politician that must be shown the door. Also the

fraudulent voting applications in Spanish filled out by illegals are directed to and/or approved by Sec. of State Daniels' office.

I recently submitted an FOIA request to Daniels; legally he has 10 days to respond. 10 days have come & gone a number of times & finally he responded...results to be made known in the future. More arrogance from these political parasites and of course this is the result of reelecting them to continue and grow their mutual protection racket. He too, as did Ken James, fails to respond to the same 11 questions requesting documents.

Ark. Gov. Mike Beebe brought up the question recently of taxpayer subsidized funding for illegal alien college tuitions and other questionable monetary involvements. Why did Beebe, out of the blue, bring up this unconstitutional, illegal involvement by the state's colleges and universities? Could the answer be that Beebe is acting defensively after a number of FOIA's have been submitted to state government agencies with more to follow, plus the Secure Arkansas ballot initiative efforts and publicity?

More nonsensical statements and untruths in addition to those mentioned earlier in this piece are the following:

The following two items have already been discussed in this piece, but warrants repetition.

1. The Gov. has stated on numerous occasions "all of the major provisions that the Secure Arkansas Initiative proposes are already covered by federal or state laws, and this ballot title will create bigger government and cost Arkansans money". Bear in mind this statement is made by an attorney, 20 yrs in the state legislature, 4 yrs as Attorney General, and 1 ½ yrs as Governor. To the Governor, if those provisions are already covered by state and federal law, why aren't you enforcing them? Actually, many of Beebe's statements have proven to be false in numerous areas, making him a liar or devoid of Constitutional law, along with federal and state statutes.
2. Perhaps the most preposterous statement, probably illegal in all its ramifications, was made on June 2, 2008. Regarding illegal immigration, Beebe says "he's not purposely avoiding the discussion of whether compassion or the rule of law should dictate how Arkansas treats its illegal immigrants". Should not that statement alone put him in jail? To place the rule of law in juxtaposition with "compassion" is indeed preposterous, the height of stupidity and grand theft, precisely what former Gov. Huckabee & now Gov. Beebe have done and are doing dispensing million of taxpayer dollars to illegal aliens without citizen knowledge or approval. Actually, Governor and elected/appointed officials, your actions actually have nothing whatsoever to do with compassion, it is to satisfy the corrupt criminals exploiting illegals, e.g. Walton's, Tyson's, Wenderoth,

George's, Catholic Churches, government programs/agencies, etc.....all of whom are Beebe's handlers. Follow the money. Alluding to item one, if what Beebe was saying was true (and it is not), how could the passage of the Secure Arkansas Initiative in any way increase taxes? The initiative will simply undergird U.S. & State laws. The question remains Governor, it appears the Poultry Federation, the culinary industry, certain religious sects, the Ark. Contractors Association, and the Chambers of Commerce own you outright? Refute if you can.

As the illegal alien tuition question continues to boil, the head of the State Dept. of Higher Education, Jim Purcell, and a fellow by the name of Stanley Williams, a senior associate Director of Higher Education (whatever that might be), entered the fray. It is obvious that these two were not doing their jobs; otherwise illegals would not be receiving tuition and a multitude of other freebies. Another example of too many layers of inept, complicit government employees. Apparently the 2 largest abusers were the U. of A. B. Alan Sugg & slickster Lu Hardin of U.C.A.

Stanley Williams wrote that he doubted "any school has gained substantially (meaning money of course) from enrolling these students", though there is "no way to recoup monies illegally obtained". Why not Stanley? Purcell said a check of the statewide database of student information found that about 2,000 people enrolled in Ark. Colleges & Universities attended under dummy Social Security numbers. Purcell goes on to say that some of them could be illegal immigrants. What the hell Jim & Stanley, its only taxpayer money you and the illegals are extracting.

It didn't take Purcell & Williams long to determine there are thousands of illegals in our colleges & universities, so as a citizen, I demand all of the illegal freebies you two have so generously dispensed, returned to the state coffers and this includes the students who are now enrolled under false documentation.

Summation: Purcell is finally obeying one law (no more in-state tuition for illegal alien students) only because of pressure from Gov. Beebe, and he is willfully disobeying another law (the one that bars illegal alien students from college.) Purcell says he is not going to remove students from the campus if they are not in the country legally...meaning they are here illegally and violating Federal law. Where is our "Judicial System" in this matter? Same as in other instances, it is selective. Purcell's conduct exemplifies that he has no regard for the Constitution and the Rule of Law. He should be fired immediately and tried in a court of law.

Why have legislators created non-essential high dollar positions for bozos like Purcell & Williams (and hundreds of others)? It is obvious there is no oversight or accountability in the University/college system, just like the disease (abuse) that permeates all government.

Another glaring example of academic arrogance and chicanery: Cuts were announced in the Spring for funding for the Univ. of Ark system, which amounted to \$107 million and \$32 million from the state's 2 & 4 year institutions. In spite of the \$139 million year budget cuts, U.A President B. Alan Sugg gave his staff and faculty 2% raises. I'm not aware of the Producers, those of us who produce the revenue to keep these university types in their palatial surroundings being awarded any raises. Bureaucrats & Politicians only use the producers for economic pincushions.

Paul Beran, Chancellor of the U. of A. Fort Smith made the following statement, "So the way I read this law, as long as we don't charge out-of-state-tuition to any other U.S citizen...then we can let students who went to high school here but are technically illegal (what is technically illegal, Paul?) have the opportunity to come to school with in-state tuition". What I get from Chancellor Beran's statements, he is simply stating that the colleges & universities can continue to give illegals in-state tuition, and other forms of illegal largesse, as long as the Fairness to U.S. citizens' provision is honored. (What a joke.) Chancellor Beran, what kind of 'Educator' would teach his students to defy the rule of law and the Constitution? Perhaps the same ones that have taught Arkansans and Americans between the ages of 18-35 who believe the World Court has jurisdiction over the U.S. Constitution and its Bill of Rights.

Another quasi educational boondoggle is called Economics Arkansas. Economics Arkansas is another one of those "non-profits". It allegedly incorporates economics education in the public school. It appears that Jim Walton, (Wal-Mart heir), president of Arvest Bank, is the progenitor of Economics Arkansas.

There is no structured approach other than Economics Arkansas encourages teachers to include economic principles in all subject areas through National Development seminars held at the states' 6 universities.

Apparently teachers are not mandated to attend, so how do you calculate how many Ark. Teachers have attended or attend Seminars?

Economics Arkansas has an \$825,000 annual budget. Another example of the failed state of education in Arkansas. Fundraising is their goal. Citizens, do these alleged educators ever discuss the curricula being removed, attenuated, and revised, in the government school systems? Of course not.

Citizens, with the educantists it's all about funding and growth of bureaucracies' compliments of the citizen taxpayers. Quit falling for the worn-out canard, "it's for the children".

Gov. Beebe in an arrogant, not so subtle show of force stated "that if lawmakers wanted to pass such laws, the proposed ballot initiative would not stop them", referring to the ballot initiative Secure Arkansas, denying certain benefits to illegals . In other

words, the state legislature is poised to override the citizen's will in handing out benefits to illegal aliens, which will be orchestrated by Governors Beebe & Harriman in their backroom giving legislators their marching orders.

Now the matters of Little Rock Senator elect Joyce Elliott. As a termed-out state representative, then Rep. Elliott sponsored HB 1525 which would allow free state scholarships and other funding for illegals and children of illegals. The proposed Bill was not only unconstitutional but murky, much like its sister Bill that provides women here illegally with free prenatal care and a host of other ancillary services. The number of illegals receiving these benefits is now in the thousands, costing Arkansas taxpayers \$millions for this ill-advised, stupid, outlaw legislation compliments of the 2005 state legislature and the self-serving Governor Mike Huckabee.. Senator Hank Williams introduced a similar Bill in 2007.

Shortly after the introduction to the public the Secure Arkansas Initiative, which denies certain benefits to illegals not mandated by the Federal Government, Senator-elect Elliott told The Associated Press that she would consider introducing legislation in 2009 that would extend in-state tuition benefits to the children of illegal aliens.

After a cursory look at Elliot's website, it appears she belongs to a plethora of organizations ranging from Socialist to outright Marxist.

I am under the impression that elected officials swear an oath to protect citizens' persons, property, freedoms and sovereignty. These oaths are sworn to the U.S. Constitution and in this case, the Arkansas Constitution. Ms. Elliott appears to be thumbing her nose at both. A Black Senator Elect, she poses the very important question, why is she not supporting Black citizens who have a very long history in our republic, and one that has not been particularly successful? Blacks in our republic occupy, for any number of reasons, many if not most of the unenviable statistics. I speak on a per capita basis with reference to crime, school-dropouts, unwed mothers, fathers abandoning, government dependence, etc. Not to belabor the point but, to amplify Elliott's very curious position of championing illegals, particularly when Black society is more prodigious in government programs, e.g., they lead in Affirmative Action, Block Grants, Quotas, racial set-asides, government employment, Medicaid, Arkids First, Food Stamps and a host of other unearned "benefits". Percentage wise these numbers far outdistance the rest of the general population. One of the tragedies of the illegal invasion is that it pushes Blacks further behind and enunciates racial divide. I spoke to one of Rev. Jesse Jackson's emissaries in Chicago in 1982 about the illegal Mexican invasion and my concerns re: the economic effect it would have on Black citizens, hoping he would take the lead on the subject. It was not to be.

It would be indeed comforting and exciting if Senator elect Elliott would apply her many skills in a meaningful Constitutional manner and assist and mentor Arkansas' Black

population in becoming more self-sufficient and better educated, rather than the flagrant violation of the rule of law which is after all, the foundation of our republic. It is noteworthy to insert here that according to Human Events that 41% of illegals are on welfare and that 1 out of 10 babies born in the U.S. are to illegals. Why should Americans continue to embrace the illegal Mexican and OTM invasion, bringing in millions of poor, uneducated individuals who instantly become dependent on government, reduce our quality of life, our culture, and heritage and further serves to stimulate the Balkanization of our society? Why should we tolerate the illegal invasion, particularly when many American citizens, if not most, are struggling so mightily?

Ms. Elliott, I ask you, who is paying for all this unearned, unconstitutional largesse totaling billions you are willing to dish out to Illegal Mexicans and OTM's?

Ms. Elliott, the illegal Mexican and OTM invasion represents the second coming of slavery in America and will ensnare all middleclass citizens, regardless of race. You of all people with a heritage of slavery should see the immediate outcome of the invasion

My purpose here is not to create an aegis around White legislators of both Houses. They too are guilty for supporting your endeavors; even more so because they are too cowardly and too politically correct to oppose your and others' unlawful efforts and acts.

So to you Ms. Elliott and your many followers, you pay for the financial burdens that you so "generously" want to saddle on the productive segment of society.

Sheriff Frank Atkinson, Sebastian County's Sherriff. Sheriff Atkinson is certainly no Joe Arpaio, Sheriff of Maricopa County, AZ., who believes fervently in upholding U.S. immigration laws. But you say, that doesn't provide for a County Sherriff with a legal foundation to arrest illegals. Wrong! Federal Statute 8 USC, Section 1324c gives all law enforcement agents the authority to make arrests on those hiring, harboring, and transporting illegal aliens.

Recently the Wyoming Sheriff's association sued both the BATFE & FBI over the issue "if a sheriff doesn't want the Feds in his county he has the Constitutional right and power to keep them out, or ask them to leave, or retain them in custody".

The District Court ruled in favor of the Sheriffs. In fact, they stated, Wyoming is a sovereign state and the duly elected sheriff of a county is the highest law official within a county, and has law enforcement powers exceeding that of any other state or federal official.

I filed an Freedom of Information request October 17, 2007 concerning OK Foods picnic at Ben Geren Park, where an estimated 3,500-4,000 Hispanics, mostly illegals, were in attendance.

The FOI asked for the following:

1. Correspondence between Sheriff Atkinson and OK Foods, Inc., or Russ Bragg, or Collier Wenderoth.
2. Any orders or directives to Sheriff's personnel with reference to providing officers at the picnic Sept. 29<sup>th</sup>, 2007
3. Copies of documents showing financial arrangements or costs for providing officers at the picnic.
4. Copies of any correspondence between the Sheriff's office and the Sebastian County Judge's office.
5. There were other questions asked and can be seen at [www.arkansasfreedom.com](http://www.arkansasfreedom.com)

The Sheriff's office responded in 1 ½ sentences. "No records exist as requested in items 1-5 of your letter". If I can be of any other service to your (sic), please contact me". Signed "Respectfully, Tom Young, Chief Deputy. (Wonder how they know who to pay and how much if they don't keep records, much less where and for what purpose their vehicles & equipment are being used?)

Mr. Young, mine was not a letter it was a Freedom of Information request, and the word is you, not your, in your so-called response.

It turns out that the County Sheriff's office from on sight observance at the picnic had numerous and various types of vehicles, and many on site personnel, with deputies commandeering most of the park for the three day event. Several officers were performing traffic control on the public highway leading into the park. It remains unknown who cleaned up the park. Additionally there were a number of public school buses providing unknown services.

OK Foods paid the miserly sum of \$1,000 to Ben Geren Park. A call to the Sebastian County Judge regarding the nefarious activities between the Sheriff's office and OK Foods produced no information. The judge said he was not aware of the event.

Is this not a case for malfeasance and misfeasance—the illegal use of taxpayer dollars utilizing taxpayer vehicles, taxpayer personnel, taxpayer facilities and commandeering a public use facility for the purpose of two criminal operations

Paul Greenberg, Editorial Page Editor of the Arkansas Democrat-Gazette, and in my opinion, Arkansas's resident neo-con, pipeline to American Civil Liberties Union, the Southern Poverty Law Center (anything but poverty), the Anti-defamation League, American Israel Political Action Committee and a host of other Jewish hit organizations,

all fueling open-borders, cheap labor lobbyists (e.g. Morrill Harriman) and business exploiters. The aforementioned organizations and in this particular case, Greenberg hurls vicious and condescending incendiaries routinely, e.g. " anti-Semite, bigot, racist, xenophobe", ad infinitum, but never uses factual data to defend his positions and remarks, and certainly the same applies to the aforementioned hit groups.

Editor Greenberg has had at least a 3 decade public personal vendetta against any individual or entity that has had the nerve to take a position demanding the leadership of our Republic and the states residing therein enforce U.S. immigration laws. Federal immigration laws give states the same ability and authority. The editor is acutely aware that his "targets" have no way to defend themselves against his perpetual onslaughts.

Greenberg's shtick is to denigrate these same citizens and/or entities with childish and insulting rhetoric. He is without shame in advocating violation of U.S. Law dealing with the exposition of the illegal alien crisis. He uses any means at his disposal, to defend the illegal Mexican invasion, including "religious orders, politicians, bureaucrats' and their phony compassionate drivels" designed to destroy reputations and credibility.

Dissecting partially one editorial by Greenberg, Sunday May 25, 2008 appearing in the Ardemgaz. In this editorial, Jeannie Burlsworth, Chairman of Secure Arkansas was his target and victim. The editorial is laced with lie after lie and innuendos aplenty. The quotations he uses are often taken out of context in order to favor his position.

The title of the editorial is "Insecure Arkansas". Underneath in smaller letters, "of Super Highways and losing Kansas City".

He begins his parade of lies with a quote from M\*A\*S\*H, which initiates the trashing of Ms. Burlsworth. His quote "I'm only paranoid because everyone is against me". Cute, Paul. The not-so-veiled implication is clear.

Giving Greenberg credit where credit is due, the initiative put forward by Secure Arkansas is weak as he correctly states. In my opinion, the initiative simply should have read "No benefits should be given to Arkansas 'illegal population other than those mandated by the federal government". He continues to demean Ms. Burlsworth's efforts by making sport of her, exclaiming "Maybe her proposal will keep all those dangerous cleaning ladies, now barreling up that Superhighway (obviously alluding to what he wants us to believe, that there is no Trans-Texas Corridor) from applying for licenses to open up Starbucks franchises". (And this guy was a recipient of a Pulitzer Prize?) I admire to the utmost Jeannie Burlsworth's charisma, affability, sense of humor, character, persistence, and most particularly her courage and patriotism. She is pure American and willing to go the distance to secure our sovereignty, heritage, culture and the rule of law. Bravo Jeannie Burlsworth! You see citizens, the Greenberg's, the Chambers of Commerce, the Tyson's of the world would have you

believe the criminal illegal alien invasion is simply economics... absolutely not; it is a Rule of Law issue. Ask yourselves citizens, why our elected officials, appointees, and hired personnel are illegally, with zest doling out hundreds of billions of middleclass taxpayers' money to illegal aliens across the country, allowing the likes of Tyson's, Walton's, OK Foods, Stephens, Alltel, etc. to reap the enormous financial benefits provided by the illegals and escaping the responsibility for paying the skyrocketing costs for their presence? The question arose, why is Alltel a member of the renegade Arkansas Friendship Coalition? Follow the money. Research shows Scott Ford, president & chief executive officer, served on Tyson Foods' Board of Directors since 2005, for \$150,000 in cash and stock annually. Tyson Foods also paid Alltel Corporation \$498,088 for communication services in 2007. These two are at the same time betraying Arkansans and American citizens while engaging in their own criminal conduct. Illegal acts accomplished by corporations and individuals in this dimension can only be described as an ECONOMIC GENOCIDE, by design, directed at the middleclass. By the way Mr. Greenberg, who did the work before the Mexicans got here? In denigrating his readers he refers to the illegals as Mes'cans, which he uses to categorize the readers as bigots and ignorant. Never does he admit that the open-borders crowd exploits Mexicans, who are in reality Mestizo Indians (not the Castilian Spaniards who control the wealth & crime in Mexico). The Mestizos are exploited by all, particularly by the U.S. and Mexican governments. Castilians' presence in the U.S. is always in a corporate capacity. Witness former Mexican president Vicente Fox, a former CEO of Coca Cola—a Castilian.

Another Greenberg quote "All we're sure of is that she sounds mighty scared, of illegal aliens and maybe reporters". (Absolutely, and with good reason on both counts. ) Greenberg, 35% of the federal penal systems are occupied by illegal criminal aliens. 13 Americans are killed each day by uninsured illegal drunk drivers. Kids Count Data Book ranks Arkansas 45<sup>th</sup> in the nation in child well-being based on dates 2005-2006, in 9 out of 10 indicators, Arkansas performed worse than the nation. Previously mentioned, \$10.3 billion of new tax money has been infused into the Food Stamp program, replete with debit cards given to illegals, we certainly don't want to embarrass the illegal alien population. Now comes another \$10 Billion to provide the "unemployed" with an additional 13 wks of government aid (don't they mean taxpayer producer aid?), the sub-prime mortgage crisis, food banks clamoring for donations, crumbling infrastructure, illegal drug distribution centers run by Mexican nationals (can you say NW. Arkansas?), proliferation of gangs, and millions of free meals year round for illegals and their children, provided by public schools, and said programs growing exponentially, etc. Our economy is in a nosedive to the abyss and is going to stay there, and there are at least 20-30 million illegals roosting here, probably more, with an estimated 1 ½ million 3<sup>rd</sup> world legals and up to 3 million illegals invading our borders yearly. Greenberg do you not know the illegal Mexican & Otm invasion has everything to do with dramatically influencing the aforementioned statistics? Of course you do. All compliments of the past 3 presidential Administrations, the moribund, complicit Congress, and the Neo-Con

26

handlers who are busily exporting our mainstream tech and engineering jobs while allowing millions of 3<sup>rd</sup> world peasants to enter, who have nothing to offer of redeeming values, except slave labor for the corporations, and more funding for government and churches. 3<sup>rd</sup> Worlders are procreating at a rapid fire rate globally. The massive 3<sup>rd</sup> world invasions are directed at Western civilization, i.e, Europe, the U.S. and Canada. Their excessive procreating and criminal invasions are destroying the lifeblood of the U.S. , taking jobs from the middleclass and burying their heads in the welfare trough and middleclass Americans are paying the cost while undergoing a political and economic genocide concomitantly. "Trading down", i.e. with reference to legal & illegal immigration is an egregious crime being foisted upon U.S. citizens by the federal and state governments , which if allowed to continue guarantees a 3<sup>rd</sup> world existence for middleclass citizens. Without strong enforcement of U.S. laws our republic will be in an irreversible shambles within 5 years. We only have to observe the massive illegal Mexican alien invasion. The statistics here are provided by Human Events. Only fools fail to understand that our republic is at the precipice of becoming a 3<sup>rd</sup> world, Balkanized gulag.

There was a time in this once preeminent Republic that our federal government took the matter of immigration seriously—legal and illegal. The practice of selective immigration was terminated in the mid 1960's and replaced by open borders and massive amnesties. Prior to the "60's we took in foreigners who would be an asset to our country and accept responsibility for self. This practice proved imminently successful. Immigrants came here abiding by strict rules, learned the language, found employment, cherished the American Constitution, and rapidly became a meaningful part of the fabric of American Society, which is the opposite of what is happening today. The past 3 U.S. presidents have collectively thumbed their noses at Article 4, Section 4 of the U.S. Constitution, which demands presidents secure our national borders from invasion.

Greenberg goes on to say that "Jeannie Burlsworth has serious fantasies, bless her heart...and indicates she is paranoid". Greenberg, you are nothing but a vicious, hired, pathetic old hit-man shilling for your tribe's hit organizations which number in the neighborhood of 50. Citizens, your letters to the editor indicate you're catching on to Greenberg's destructive behavior.

Greenberg says he agrees with Burlsworth that we need to secure our borders...Paul; your history indicates the exact opposite. He stated "and we do need an immigration policy that respects the law and protects American citizens'. What he doesn't say; is what his new immigration policy would contain and how it would affect our sovereignty, but claims it would respect laws and would protect. Perhaps his eminence should explain to us "What is, is". Paul, acquaint yourself with Federal Law 8 USC, specifically Section 1325, 1324a (hiring-Harboring-Transporting an illegal alien is a

**felony**....and Section 1324c ALL law officers have authority to make arrests. For you Paul, and other deniers, that means **ALL** law enforcement agencies. We have, as stated above, an all encompassing immigration policy; it is just not enforced by the traitors who have the power to do so.

Greenberg goes on to quote the Urban Institute presenting the dollar contributions made to the state by illegals way back in 2004. (That's 4 Years ago, folks.) He refers specifically to their education, health services, but conveniently leaves out Food Stamps, Emergency Rooms, Social Services, Translators, Anchor Babies, ad infinitum. Greenberg goes on to say that the state spent \$237 million in 2004 and the state took in \$257 million in tax revenue from the same population. These numbers have been previously addressed in this piece which showed the state lost \$97 million because of cheap, under the table wages that were paid instead of hiring Americans at prevailing wages. Remember that none of the services listed above and more were tabulated in the Urban Institute Report. Paul, are you aware or care that the Mexican Mafia (I can hear you now...he's off on a conspiracy theory) is subsidizing many American-English eateries throughout the state with illegal labor and under the table money, i.e. money laundering, creating revenue for new businesses? In this same venue you made another one of your childish, degrading statements..."when you buy a coke at the Wal-Mart, the clerk doesn't check your nationality before charging you sales tax". What does nationality have to do with legality?

Ms. Burlsworth also discusses in some detail, the Trans-Texas Corridor, a 12 lane superhighway with the first phase ending in Kansas City, MO. with real-estate given to Mexico as Mexican sovereign territory, the name is Smart-Port. The TTC is designed to carry Chinese goods from a southern port in Mexico, which bypasses the massive ports in Long Beach, CA, using cheap Mexican labor, with no oversight or inspections, and the loss of thousands of American jobs. Wal-Mart and other corporate giants are bankrolling this sell-out. Greenberg's denial of these facts, along with majority of the senate and congress demonstrates complicity and treachery, not a word from Arkansas's 6 national elected politicians regarding the subject of the Trans-Texas corridor or the NAU...political cowards all.

Ms. Burlsworth addresses topically the North American Union, also known as the SPP (the Security, Prosperity Partnership) designed to erase our borders contiguous with Mexico & Canada, accompanied by the installation of a new currency, the Amero. There have been 3 meetings conducted by the U.S., & Mexican presidents and Canadian Prime Minister regarding the creation of the North American Union. The first of the 3 was held March 5, 2005 at Baylor Univ. Waco, TX, the 2<sup>nd</sup> a year later in Montreal, Canada, and the 3<sup>rd</sup> in New Orleans in 2008. A 4<sup>th</sup> meeting held June 16, 2008 in Mexico City and attended by U.S. Secretary of Defense Robert Gates, along with Officialdom from Canada & Mexico. Since the Mexico City meeting the former SPP and the NAU are

now known as the NORTH AMERICAN LEADERS Summit. The Mexico City meeting put the final touches on their treasonous plan to erase our borders. Greenberg also denies these facts, along with most senators and congressmen. Anyone with a computer can verify it all within minutes. Citizens, what have you heard from our 2 dynamic senators Pryor & Lincoln and our 4 dedicated public servants (to themselves) Boozman, Ross, Berry, Snyder? Answer....nothing.

Editor Greenberg goes on to say, parroting Gov. Harriman, or is it Beebe, that there "would be another mandatory and expensive burden placed on Ark. Law enforcement, which you'd think already has its hand, arms & legs full." Tell us Paul, since the Secure Arkansas initiative undergirds existing law, how do you and Beebe justify your accusations? Since when is enforcing U.S. and State laws a burden? Speaking of expense, Arkansas has a \$1 billion revenue surplus and a bevy of silly, very costly, illegal programs, e.g. requiring state police to run up and down the highways "clicking or ticketing, not to mention the millions being spent on print material, TV spots (including Mexican Univision), radio, all in **Spanish** targeting Illegals with instructions on how to get "benefits", driver's licenses, and voting rights...all against our laws and increasing the illegal magnet, while many of our citizens put their trust stupidly in Arkansas governments. Only in Arkansas could a clone of Nick Wilson, a back-room wheeler-dealer empty suit and a 30 plus year experience in the taxpayer trough be elected governor with a 70% approval rating. It's been said many times, you get the kind of government you deserve.

Citizens, how many of you are aware of the backroom, double-dealing going on inside the Halls of Arkansas State government entities?

And finally, at the end of Greenberg's "Insecure Arkansas" editorial, he tacitly admits that there is a Superhighway and perhaps a merger being planned. So which is it Paul? You made sport of Ms. Burlsworth for spotlighting these issues and portraying her as if she was in fantasyland and then you conclude that it is all in the realm of possibility. A caveat? With your last evil statement, you demean Ms. Burlsworth by saying that her Initiative Secure Arkansas does not keep a Superhighway from being built or the merging of the 3 countries. You know very well those were never the purposes of her Initiative.

Editor Greenberg, you have made a career of gaming the system, using the power of your vitriolic pen. Your brilliance has been wasted in ethnic conflicts which attempt to destroy the Founder's Principles as well as the backbone of the Republic. You have lyophilized governors, state legislators, elected & appointed sycophants, including the current bunch, as well as most reporters/columnists, with frightening, tragic success. The state legislature draws special praise in the matter of the illegal Mexican invasion and some other areas and can only be described as self-serving, parasitic cowards.

When I began this piece I stated Greenberg's last editorial hit piece smearing Jeannie Burlsworth occurred 5/25/08. Right on schedule came another of his poisonous writings "Let's spread a rumor" 7/2/08 attacking Legislator Jon Woods with his usual vitriol and never defending the childish rhetoric. He began by describing Rep. Woods as (R-phobia). Greenberg goes on to say "The freshman representative from Springdale was at it again the other day, namely bashing illegal immigrants". "That's been his shtick since going to the Ledge". Mr. Neo-Con Greenberg, these are not illegal immigrants, they are foreign national illegal aliens, and bashing criminals is an American custom. Speaking of shtick, you have at least a 30 year career of advocating the breaking of U.S. law.

Greenberg further states "Mr Woods said killings ordered by gang members in Springdale and Rogers had been carried out outside of Arkansas". Greenberg concludes: "there is just one problem with Rep. Wood's story: it didn't happen". Question Editor Greenberg, how do you know it did not happen and is not happening on a continuing basis?

75% of illicit drug traffic comes across the border into the U.S. from Mexico. It has long been known that illegal Mexican drug cartels operate drug distribution centers across the U.S. There has been a major drug distribution center in NW. Arkansas for at least 2 decades. The Drug Cartels employ Coyote operations has their enforcement agency of choice for contract killings. With all the numerous gangs residing in NW Ark. and law enforcement neutered for whatever reason, it is the height of naiveté not to understand that contract killings are their order of the day.

I believe it was Asa Hutchinson's last term in Congress when he convened a congressional oversight committee in Rogers, AR. Attending were Congressmen, various local, state & national law enforcement agencies and a host of other officials. Conclusion: NW Arkansas is a hotbed of illicit drug and human trafficking.

Quoting Greenberg: "Mr. Woods, if we may; a personal word: When you spread such rumors, you only hurt your own cause". To you Mr. Greenberg, continuing to spread lies or hearsay will serve to destroy the last vestiges of credibility you may have on the subject of the illegal Mexican invasion and the criminals hiring them. Citizens, there are other amateurish accusations in this piece, but you get the picture.

As of this date, July 18, 2008, Editor Greenberg's last salvo dated July 11, 2008 was supportive of Marxist presidential candidate Barak Obama's proposal that all American parents should teach their children Spanish. Greenberg gets bolder and bolder with his egregious attacks on Arkansas & the U.S. His outburst pertaining to American kids having to learn Spanish underscores the failure of illegal Mexican adults and children, for whatever their reason, to take advantage of taxpayer billions spent on English as a second language. Obviously, these "mes'cans" (Greenberg' term), have

no intention of acculturating. It is Greenberg's position, since the illegals and some legals will not learn English; we should force our youngsters to learn Spanish.

Interesting that Greenberg, is more than willing to aid in the destruction of our society championing an unbridled invasion by a 3<sup>rd</sup> world ethnic group.

A tacit examination of some positions taken by our U.S. Congressional and Senatorial office holders. This group has been catalogued by more than one rating service in 2006 & 2007 as being the weakest Senatorial & Congressional delegation in Washington, DC.

I would challenge the readers of this piece to name one legislative achievement by any of the 6. I am speaking of Senators Mark Pryor & Blanche Lincoln, the congressional representatives, Mike Ross, Marion Berry, John Boozman, Vic Snyder. Pryor is a third generation product with his snoot in the taxpayer trough. His father, David Pryor, better known as "Dull David" spent 5 decades in various capacities in Arkansas and Washington, DC. His only accomplishment came during his tenure as Governor. He introduced Big-Time welfare to the state. Senator Mark Pryor, as Attorney General, was guilty of hiring illegal alien domestic help. His most recent political gaff was his reading before the Senate President George Washington's farewell address, which invokes free trade, nurturing friendship and trading partners and avoiding entangling foreign alliances.....the antithesis of Pryor's voting record. These clowns have no shame.

Senator Blanche "the Delta Duchess" Lincoln, is an empty dress. It looks to me like her sole reason for being in the Senate is to pad Ag subsidies for her, her family and political & economic soul-mates. A report from the New York Times, 5/15/08, showed the Duchess voted for the Ag Bill which allows subsidies of farm incomes up to \$750,000 and nonfarm income of \$500,000 per individual per year. In this context she states "Farm families in Arkansas should not have to sacrifice their way of life, and that is what this proposal would do." Do you now understand who the "Duchess" really represents?

Congressman John Boozman, the Travellin' Man, spent only 37 days in the Congress in 2007. Best estimates from FOIA request indicates he makes 8-10 international trips per year, many accompanied by his wife. Who pays?

Congressman Mike Ross, the Arkansas Democrat-Gazette nominated Ross as the worst state senator in the Legislature. He too likes to travel.

Congressman Marion Berry, I.E Plantation Marion...this dude and his family reap millions per year in farm subsidies; he doesn't even say "thank you taxpayers" and the Berry Bunch are in a land buying mode—why not?

Congressman Vic Snyder, an imminently qualified individual who has the credentials to be an outstanding statesman, yet he chooses to wallow in what appears to be a cultural Marxist bathtub.

Not one of these 6 have opened their mouths in defense of middleclass citizens and their plight dealing with the illegal Mexican & OTM invasion, and don't expect them to do so.

Citizens, as you continue to re-elect these self-serving political and power-hungry parasites, you and unfortunately I, will get the government we deserve.

Our republic, \$9.75 Trillion dollar national debt, accompanied by a \$67 Trillion 10 year unfunded national mandate, a phony war against "terrorism" built on lie after lie, enabled by the 6 above, an illegal Mexican invasion, trade deficits, exportation of 3 million high tech jobs, at the precipice of a depression, infrastructure in the dumper, food banks proliferating, and we're wallowing in a multi-cultural gulag while the 6 fools above and many others voted on May 16<sup>th</sup> to give the criminally corrupt government of Mexico, \$1.4 Billion for something called "The Merida Initiative", also known as Plan Mexico, which allegedly is to provide a wide array of weapons to the Mexican army, distributed by government agencies such as USAID, US Defense Contractors, Mercenary Firms, and weapons manufacturers. This idiotic Act continues to line the pockets of the Military/Industrial Complex.

Marxist Democrats' overwhelmingly support Plan Mexico, which is their first overt public step in implementing the erasure of our national borders contiguous with Mexico & Canada.

Citizens, you & I are subsidizing our own demise—the question must be asked, why do you continue to vote for these elected and appointed traitors, who in the name of obtaining huge amounts of unearned largesse, for themselves and their enablers have casually destroyed the U.S. Constitution, the Bill of Rights, the Rule of Law, the quality of life, and permitting the United Nations and the World Court to institute force, violence, censorship and the authority for secret search and seizures being used against us.

### **A topical overview of the nexus between churches and government.**

Don't think for a minute "Follow the money" doesn't apply to churches....especially the Mega-Churches. The history of most churches is sharing powers with rulers in exploiting the peasants. Churches should return to their duty caring for the unfortunate, not taking from the workers to give to others of their choosing.

The Catholic Church, in particular has been actively lobbying Congress for many years for taxpayer monies under the banner of "Catholic Charities" to subsidize their sanctuary programs totaling hundreds of millions with no oversight. When G.W. Bush instituted "faith-based" funding for any "religious order" offering aid to illegals, the

whole thing went South...south of the border mostly. Presidential candidate Obama advocates the expansion of "faith-based funding".

Hispanics are mostly Catholics, so that church scored big. Other major players are Latter Day Saints, the Methodists, Presbyterians, but not limited to. As pointed out previously, Jews are huge players in supporting and pushing unbridled legal and illegal immigration. The people who aid and abet illegals are not true Americans, in fact by existing law they are breaking the law themselves, they cower behind Altruism, which like Communism requires the sacrifice of self and family to "others" ....no matter who the "others" are and what they deserve. A disgraceful scheme. Only a self-sacrificial or greedy idiot would subscribe to such an ideology, and hopefully will get what they deserve. The term Altruism was invented by Auguste Comte in the late 1700's....our Founders would have held such a concept in contempt and beneath acceptance of any rational human. The Founders' believed in individualism and the "right to life, liberty, and the pursuit of happiness" ...the opposite of Altruism (not to be confused with charity).

Boy howdy, does it serve the traitorous jerks today. How best to open our borders to impoverished, uneducated slave laborers for our corporations, government programs and church funding than by the means of "diversity & sensitivity" training? Brainwash the kids and the crooks have it made....thanks to the public government schools, the Mainstream Press, and the so-called entertainment industry, including the mega-churches.

Hope you understand now why the churches are leaders in the Arkansas Friendship Coalition and why most lead the way to open-borders and the destruction of the middleclass dissenters. Back to the Dark Ages and beyond. You see, they understand they aren't capable and/or too lazy to make their own living, so it is easier to mooch from and/or conquer those who can and will. Death to the Golden Geese who dare to reveal the evil ones, even if it means the criminals' own demise.

Before this screed is terminated a brief 3 paragraph Associated Press news story appeared in most of the state's newspapers, June 23, 2008. "Arkansans to Tour Mexico". Briefly the story states, a group of government and business officials will spend 4 days in Mexico organized by the Mexican Consulate in Little Rock. Andres Chao, Consul, arranged the affair. 2 of the notables attending are Little Rock Mayor Mark Stodola and a representative from Gov. Beebe's office. After 2 days in Mex. City they will head for Pachuca for 2 days.

Chao says ULAR Chancellor Joel Anderson will sign an agreement with a University in Pachuca for an exchange program between the 2 schools. Officials with airplane manufacturer Bombardier Mexico will also meet with the group. Chao says there will likely be discussions about bringing direct flights from Mexico to Little Rock.

Why all the secrecy?

1. It has been determined that 13 individuals made the trip
2. Why have those names not been made public? This was in part an official visit.
3. Did Andres Chao travel, and if so, who paid his transportation and related expenses?
4. Why was such emphasis made by the press over the fact that each paid for their own transportation? Which begs the question, if this is official business why did Mayor Stodola & Gov. Beebe's representative pay their own way? If not official business, why did those2 attend?
5. As previously stated, Mayor Stodola is a law partner of Graham Catlett, the firm that we are told is up to its eyeballs in legal and illegal immigration matters...to say the least, isn't this a conflict of interest?
6. Recall if you will, Ark. Attorney General's offices are in Catlett's building and the Catlett Empire gives all appearances of being McDaniel's most prolific donor.
7. What is the point of the Univ. of Ark. At Little Rock engaging in a University exchange program with Mexico and who pays?
8. As stated previously, Bombardier Mexico will meet with the group...why? Bombardier is a Canadian corporation engaged in many activities other than aircraft. They manufacture recreational & commercial vehicles, and are heavily involved in road construction (just to name a few)...which poses the question, the master plan of the Trans-Texas corridor allows feeder highways to branch off from the main artery TTC. One of the proposed arteries branches off in central Texas and proposes to enter Arkansas in the Southeast corner. Therefore; could this be a reason for Bombardier to meet with the Arkansas group? Road building?
9. Other than transporting illegals and/or drugs into Arkansas, what possible need would there be for direct flights from Mexico to Little Rock.

It is patently obvious that the illustrious group is in the process of cutting a backroom deal and middleclass Arkansans are not a part of the mix. It looks like another example of political and economic genocide being directed at taxpaying Arkansans, if not, why the secrecy, most particularly from the Little Rock Mayor and from Ark. Gov. Mike Beebe.

The 13 person exercise gives the appearance the trip is all about increasing the size of the illegal magnet, without citizen knowledge or approval.

Emails were sent to legislators, 2 journalists, and a talk show host as to how many travelled, the mode of transportation, and the names of the travelers and purposes, Bombadier's function, the magnitude of the alleged exchange program & purpose, who paid, what reason would prompt direct flights from Mexico City to Little Rock, and finally what is the function of the Ark. State government Rep and Mayor Stodola? No replies.

As of this date, July 18, 2008, there has been no follow up story by the Associated Press or the Arkansas Democrat Gazette regarding the Mexico City trip, to my knowledge.

### **Conclusion:**

Citizens, if you have taken the time to read this piece, most is recent history. Therefore; you should be acutely aware that no government official at any level is representing you and the collective interest of middleclass Arkansans and/or Americans. Putting it bluntly, their legislative and legal efforts are solely directed for corporations and all government entities, with the idea of exacerbating the illegal and OTM invasion. Their conduct can only be described as greedy and traitorous. Let me put it another way, and I'm speaking of local, state, and national governments. The present President and most Governors/Judicial/Legislative/law enforcement have all colluded to sell-out every facet of our Constitutional Republic for open-borders and cheap slave labor, which is giving rise to the economic/political genocide of middleclass Arkansans/Americans.

The attack on the middleclass is more than just a concerted effort to destroy the middleclass and supplant us with a 3<sup>rd</sup> world, poverty ridden, and uneducated population. National and state governments realize with the dissolution of middleclass America and their destructive march through the institutions is complete, and on to global dictatorship. The power structures understand that as long as middleclass America survives, their global governments have no chance of success...with that said, we are presently in a nosedive to the abyss and unless we quickly recover and become overtly aware of the destructive procedures directed at us our demise is at hand (5 years max.). We have no semblance of representative government, our vote means nothing legislatively. Both political parties are corrupt to the core and they mirror each other with no real differences. Insider battles are about turf, power and economics, and not the critical issues that face our once preeminent Republic, i.e. the massive legal & illegal invasions, immediate termination of the criminal Iraqi war (orchestrated by the U.S. government), getting out of the UN & NAFTA, and returning our 500,000 troops stationed in 130 countries while allowing them to do what they are trained for...protect our borders and at the same time infuse millions into our economy. And finally, discontinue foreign aid immediately. Fools, have you forgotten that our republic is the largest debtor nation in the history of mankind? The Federal Reserve's printing presses are smoking.

The vote the Constitution gives us, tainted as it may be, is our tool for survival and must now, more than ever before be used and coupled with uncompromising objectivity , courage and determination...all incumbents must be voted out. They are the reason we are in such dire straits. If allowed to stay 2 or more terms they become part of the political protection racket and personal power and economics becomes their only GPS.

The present Arkansas State Government, under the wings of career politicians & bureaucrats is the most politically corrupt, the deadliest political machine and the stakes the highest I've seen in my lifetime. It has resulted from the nexus between huge government/huge corporations/huge religions and their eternal quest for money and profits at any cost. The only interest in middleclass Arkansans is our ability to generate the funds necessary to carry out their nefarious schemes. Notice, recently the corrupt Triumvirate...Religious, corporations, and government have come out of their backroom closets in open defiance of the U.S. Constitution, the Rule of Law, and the will of the people.

The United States is now the 3<sup>rd</sup> most populous country on the planet, by 2050 it is estimated that 1 out 5 children born in the U.S. will be Hispanic. Does this suggest that there is no intention of securing our borders and deporting the 25-30 million illegals already here? It is now estimated that there's over 200,000 illegals in Arkansas. Why would honorable legislative bodies turn us in a 3<sup>rd</sup> world country? We continue to be overrun with legals and illegals to the tune of 3-5 million per yr, with an accompanying growing welfare state, a sharp reduction in our standard of living, exportation of quality jobs, and by design the economic and political genocide of the American Middleclass.

Arkansans and Americans, let me simplify all the above by asking yourself this question, why are we trading down?

Citizens, continuing to worship at the altars of the Democrat & Republican parties is precisely what the power structures are counting on.

**Thomas Jefferson:**

"When once a republic is corrupted, there is no possibility of remedying any of the growing evils but by removing the corruption and restoring its lost principles; every other correction is either useless or evil."

**Alexander Hamilton (The Federalist #32, 3/Jan/1788): "**

“But as the plan of the Convention aims only at a partial union or consolidation, the State governments would clearly retain all the rights of SOVEREIGNTY which they before had, and which were not, by that act, EXCLUSIVELY delegated to the United States.”

**An excerpt from THE DECLARATION OF INDEPENDENCE:**

“Men, deriving their Just Powers from the Consent of the Governed, that whenever any Form of Government become destructive of theses ends, it the Right of the People to alter or to abolish it”

**General R.E. Lee’s Prediction**

“The consolidation of the states into one vast republic, sure to be aggressive abroad and despotic at home, will be the certain precursor of that ruin which has overwhelmed all those that have preceded”.
